

HABITAT INFORMATION

*After completing bird survey, record habitat data for an area within a 100-m radius circle from survey point.

% Wetland = Record percent of 100-m radius circle that is wetland.

% Cover of Major Wetland Habitats = Record percent of 100-m radius circle in each of the five wetland categories.

Dominant Herbaceous Plant Type(s) = Record the type (listed below) and what % of the 100-m radius circle this type covers.
If more than two types dominate, make note in comments and/or use additional rows.

% Cover of Major Wetland Habitats:							Date of Habitat Assessment: _____				
Point #	% Wetland	Emergent Herbaceous	Open Water or Floating Plants	Exposed Mud, Sand, or Rock	Trees	Shrubs	Most Dominant Herbaceous Plant Type	%	Second Dominant Herbaceous Plant Type	%	Comments

Dominant Herbaceous Plant Types:
